PROFILE

I am highly organized, dedicated, and passionate about Web Development and UI/UX design. I've been studying UI/UX Design and taking several online courses to increase my learnings, specifically on front-end development. I can build a user-friendly responsive website and make some minor web projects.

CAREER OBJECTIVES

To work in an organization which provides me with ample opportunities to enhance my skills and knowledge along with contributing to the growth of the organization

PROJECTS

Online Monitoring Tool (Capstone Project)

- Developed an online monitoring tool that can track students' activities

Tutor Finder (Course Project)

- Created UI/UX design of an online mobile platform for finding tutors.
- Used some tools such as Figma to creating prototypes and wireframes

Coffee Shop Website (Course Project)

- Developed a responsive website of a coffee shop
- Used HTML, CSS, Javascript

Personal Portfolio (Web Portfolio)

- Developed a responsive personal web portfolio
- Hosted using Github Pages
